

Standish House Development: Open Afternoon

Thursday 24th November, 12 noon - 3pm

This will be an opportunity to meet representatives of PJ Livesey, the chosen developers for Standish House, on site. They will offer a guided tour for those arriving at 12 noon and will be available to discuss their design ideas throughout the open afternoon. It may be possible to access some of the buildings and there will be display boards to demonstrate current plans.

Sensible shoes are needed but hard hats etc. will be supplied as necessary.

Standish Parish Council hopes that as many local people as possible will attend this important event to find out how the developers' plans are progressing and express their own views.

There will be a more formal public consultation event in the New Year, which the Parish Council has asked to be run at a weekend to give more people the chance to participate.
